

IS YOUR PATIENT'S SIGNATURE MISSING FROM THE COSENTYX[®] SERVICE REQUEST FORM (SRF)?

No problem.

Patients can easily sign electronically following these simple steps. Please direct your patients to:

- 1 Go to HIPAAconsent.com and complete user information
- 2 Enter "COSENTYX" in the Medication Selection section
- 3 Provide their authorization
- 4 Receive confirmation

The authorization will be submitted to the COSENTYX Connect Personal Support Program electronically, and the SRF will be processed. The sooner we receive a signature, the sooner you can get your patients started on COSENTYX.
